

What is ebec ?

Gothenburg

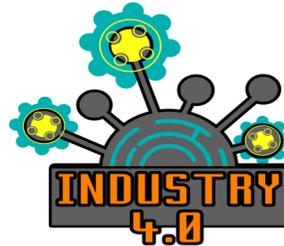

European BEST Engineering Competition (EBEC) is the largest Engineering Competition in Europe, conducted by students for students. Teams that are composed of 4 members from technology fields, regardless of status of their degree, are challenged to solve the tasks that are provided by BEST in 3 different competition levels.

The winners of each Local Round compete against each other in the National or Regional EBEC Round, and the EBEC Final will reveal Europe's most talented technology students!

What to expect

This year's Local EBEC competition will look into Industry 4.0 - the fourth industrial revolution and the digitalisation of the manufacturing sector.

The competition will be centred around case study, set by a member of industry partner. Workshops and lunch lectures will be held during the competition to provide participants with inspiration and advice.

When? 27th - 31st March

Where? Chalmers University

How do I apply?

If you're interested in taking part, simply contact BEST Gothenburg using the contact details on the back of this leaflet

BEST

Board of European
Students of Technology

What is **BEST**?

The Board of European Students of Technology, BEST, is a non-profit, non-political organisation that provides communication, co-operation and exchange possibilities all over Europe. Local BEST groups form a young, growing and innovative student network.

32 Countries

94 Local Groups

3300 Members

1,3Million Students Reached

BEST Gothenburg

BEST Gothenburg is our local group, which has been running since 1992. Since that time we have organised a vast amount of successful events, providing opportunities for countless students

Vision: Empowered Diversity

Mission: Developing Students

Being a member in our local group gives you opportunities to travel and to take on responsibilities on a local or an international level. BEST is a pool of opportunities where you get to pick what you're interested in, or what simply sounds like a lot of fun!
